

SRINIVASAN – PRODUCT DELIVERY MANAGER

Melbourne Australia | 0450 961 734 | srinivk@gmail.com | <https://www.linkedin.com/in/srinivasan-krishnamoorthy-0589886> | <https://srinik-productleader.github.io/product-leader/>

PROFESSIONAL SUMMARY

Product Owner and technology transformation leader with 15+ years of product management, product ownership and technology delivery experience, backed by experience across consulting and enterprise technology.

Brings **strong experience in contact center transformation**, AI-driven transformation, **Intelligent Automation** and enterprise digital platforms, with a track record of turning customer and operational problems into product strategies, roadmaps, backlogs and measurable outcomes.

Good experience building contact center solutions for financial services customers using products including Amazon Connect and Genesys. Particularly strong in **AI-enabled customer journeys, contact center automation, Generative AI, Agentic AI, LLMs and workflow automation**, including hands-on use of **Microsoft Copilot, Claude Code, Model Context Protocol (MCP), Power Automate, Copilot Studio, AI Builder and Microsoft Power Platform**.

Financial services transformation experience includes building [contact centre automation roadmap](#), **claims automation, KYC, customer onboarding and payments reconciliation** through enterprise client engagements. Experienced in discovery, business case development, product prioritization, roadmap sequencing, risk and dependency management, governance and executive stakeholder engagement.

Strong domain experience in financial services working with customers like Northern Trust, Franklin Templeton, Key Bank and Merrick Bank.

A Certified Scrum Product Owner (CSPO/ACSPo) and SAFe Product Owner/Product Manager (POPM), with a practical, collaborative leadership style focused on customer outcomes and delivering value.

Australian Permanent Resident and open to work across Australia.
